

Explore MnDOT's new web-based Minnesota Bikeways map and plan your next adventure!

Get Going

Our web-based Minnesota Bikeways map shows trails, shared-use paths, and on-street bicycling facilities in Minnesota. It also includes the daily number of vehicles on each roadway, widths of paths and shoulders, and the riding surface type (like concrete or gravel) to help you plan a comfortable ride. This resource isn't an app – simply access the Bikeways map through your mobile browser.

Get Involved

You can help us keep the Bikeways map up to date by submitting comments and corrections via our Minnesota Bikeways Crowdsourcing App (available on MnDOT's State Bikeways map page: mndot.gov/bike/state-bike-map.html).
